Unless otherwise specified, all funds appropriated remain available for obligation until September 30, 2010.	Title XVI, Section 1603
Regarding infrastructure investment, preference must be given to projects that can be started and completed expeditiously. The law sets a goal of having 50% or more of the funds for projects started not later than 120 days after enactment.	Title XVI, Section 1602
No funds made available to any state or local government may be used for casinos, gambling establishments, aquariums, zoos, golf courses or swimming pools.	Title XVI, Section 1604
Infrastructure projects involving construction, alteration, maintenance or repair of public buildings or public works must be accomplished using iron, steel and manufactured goods produced in the United States (exceptions can be made).	Title XVI, Section 1605
Laborers and mechanics employed by contractors and subcontractors on projects funded in whole or in part by this Act must be paid the prevailing wage.	Title XVI, Section 1606
Governors must certify within 45 days of enactment their intention to request and use funds provided in this Act. The State Legislature may certify the state's intention to use any funds not accepted for use by the Governor.	Title XVI, Section 1607
Funds must be devoted to ensuring that applicable environmental reviews required by the National Environmental Policy Act are completed expeditiously and that the shortest applicable process is utilized.	Title XVI, Section 1609
It is unlawful to hire non-immigrants unless the recipient is in compliance with the requirements for an H-1B dependent employer.	Title XVI, Section 1611

<b>Federal Department:</b>	U.S. Department of Education: State Fiscal Stabilization Fund (SFSF)
<b>Federal Office, if applicable:</b>	
<b>Program:</b>	<b>SFSF General Provisions (see below for breakdown)</b>
Total Appropriation:	\$53,600,000,000
Alabama's Allocation:	\$729,041,000
Direct Recipient Entity:	Governor
Subrecipient Entity(ies)	Various Entities
Maintenance of Effort Requirement:	Any application for SFSF funds shall include assurances that the state will, in each of FYs 2009, 2010, and 2011, maintain state support for elementary and secondary schools, as well as institutions of higher education, at least at the level of such support in FY 2006. Note that any FY 2009, FY 2010, or FY 2011 maintenance of effort provision may be waived or modified at the discretion of the Secretary of Education. Such a waiver or modification will not be granted unless the Secretary determines that the state or LEA will not provide a smaller percentage of the total revenues available to the state or LEA than the amount provided for such purpose in the preceding fiscal year. If approved, the waiver would allow the state or LEA to treat any portion of funds received from the SFSF as non-Federal funds for the purpose of maintaining fiscal effort under any other program administered by the Secretary. If granted, the waiver would seem to be applicable for no more than one fiscal year, however.
Availability of Funds	
Federal	
State	The Department of Education anticipates that SFSF funds will be awarded in two phases and that all funds will be awarded by September 30, 2009. Such funds will remain available for obligation through September 30, 2009.
Local, if applicable	
Use of Funds:	Alabama shall use 81.8% of its allocation for the support of elementary, secondary, and postsecondary education and, as applicable, early childhood education programs and services. The remaining 18.2% shall be used for public safety and other government services, which may include assistance for elementary and secondary education and public institutions of higher education.
Restrictions:	No funds shall be used to provide financial assistance to students to attend private elementary or secondary schools. An LEA who receives SFSF funds may use the funds for any activity authorized by ESEA, IDEA, the Adult Family Literacy Act or the Perkins Act, or for modernization, renovation, or repair of public school facilities. An LEA may not use funds received for payment of maintenance costs, stadiums or other athletic facilities, vehicle upgrades, improvement of certain stand-alone facilities, or for any repairs inconsistent with state law. A public institution of higher education that receives funds shall use the funds for education and general expenditures, and in such a way as to mitigate the need to raise tuition and fees for in-state students, or for modernization, renovation, or repair of institution of higher education facilities. Such institutions may not be used to increase endowment accounts and may not be used for the maintenance of equipment or facilities, or for the modernization of athletic or religious facilities.
Notes:	Approximately \$4.9 billion is taken "off the top" of the total SFSA appropriation by the Secretary of Education to be used in "outlying areas," for administration and oversight expenses, and for State Incentive Grants and Innovation Grants. Remaining funds are allocated to states based on a two-part formula: (1) 61% of the remaining funds shall be allocated on the basis of each state's relative population of individuals ages 5 through 24; and (2) 39% of the remaining funds shall be allocated on the basis of each state's relative total population. All SFSF funds shall be allocated in grant form to the Governor. In applying for grant funds, in addition to the maintenance of effort assurances, the Governor shall describe how the state intends to use its allocation. Extensive guidance about how these funds may utilized was released by the U.S. Department of Education on April 1, 2009, and can be viewed on their website.

Use of Funds:	Funds used in restoring state support for education shall first be allocated (1) to provide the amount of funds, through the state's primary elementary and secondary funding formula, that is needed to restore, in each of FYs 2009, 2010, and 2011, the level of state support provided through the formula to the greater of the FY 2008 or FY 2009 level and, where applicable, to allow formula increases to support elementary and secondary education for FYs 2010 and 2011; and (2) to provide, in each of FYs 2009, 2010, and 2011, the amount of funds to public institutions of higher education that is needed to restore state support for such institutions (excluding tuition and fees) to the greater of the FY 2008 or FY 2009 level. Funds remaining after these levels have been met shall be allocated by the Governor to LEAs based on their proportionate share of Title I funding.
Restrictions:	
Notes:	If the Governor determines that the amount of funds available is insufficient to provide FYs 2009, 2010, and 2011 support for the funded education sectors, then the Governor shall allocate those funds in proportion to the relative shortfall in state support for those education sectors.

<b>Tax Relief for Individuals and Families</b>		
<b>Name of Provision</b>	<b>Description of provision</b>	<b>Effect on Alabama</b>
Making Work Pay Credit	This is a new credit that is equal to 6.2% of income, with a maximum credit of \$400 for single filers and \$800 for joint filers. The credit begins to phase out at \$75,000 of AGI (\$150,000 for married filers). The credit is completely phased out at \$95,000 of AGI (\$190,000 for joint filers). The credit will be available for two years, 2009 and 2010. The IRS issued new withholding tables on February 21, 2009. Employers must begin to use the new tables no later than April 1, 2009. Employees will receive the benefit of the credit through reduced withholdings for the rest of 2009.	None
Earned Income Tax Credit	The bill increases the maximum EITC for families with three or more qualifying children from \$5,028 to \$5,656.50 for 2009. The bill also increases this maximum for 2010. The bill also provides marriage penalty relief by increasing the income level at which the credit begins to phase out for married couples.	None
Child Tax Credit	Currently, the child tax credit is refundable if a taxpayer's earned income is greater than \$12,550. The refundable amount is limited to 15% of earned income in excess of that amount. This bill lowers that "earnings threshold" to \$3,000 for 2009 and 2010.	None
American Opportunity Tax Credit	This is an expansion of the current Hope credit for education expenses. Currently, the credit is limited to \$1,800 (for 2009) for each eligible student for the first two years of post-secondary education. This bill, for tax years 2009 and 2010, increases the maximum allowable credit to \$2,500 per eligible student and allows the credit to be taken for the first four years of post-secondary education. The bill allows course materials to be counted as a qualified educational expense for purposes of the credit. The credit is phased out for taxpayers with income between \$80,000 and \$90,000 (\$160,000 and \$180,000 for joint returns). 40% of the credit is refundable.	None
Section 529 qualified tuition programs	The bill allows monies withdrawn from these plans to be used to buy computer technology and equipment to be used by students who are enrolled in college.	None
Homebuyer credit	Currently, this credit is limited to \$7,500 or 10% of the purchase price of the house, whichever is less. The credit applies to houses purchased by first-time homebuyers after April 8, 2008 and before July 1, 2009. The credit phases out for taxpayers with income between \$75,000 and \$95,000 (\$150,000 and \$170,000 for joint filers). The credit is repaid through the purchaser's income tax return over a 15-year period beginning two years after the home is purchased. The bill extends the existing credit to homes purchased before December 1, 2009. Also, for homes purchased between January 1, 2009 and December 1, 2009, the maximum credit is increased to \$8,000, and the credit does not have to be repaid.	None
Unemployment compensation exemption	Currently, unemployment compensation benefits are treated as income for tax purposes. The bill exempts the first \$2,400 of benefits received in 2009.	None
Sales tax deduction	The bill allows a deduction for sales taxes paid on the purchase of an automobile between the effective date of the bill and the end of 2009. The deduction is limited to sales taxes paid on the price of the car up to \$49,500. The deduction is phased out for taxpayers with income between \$125,000 and \$135,000 (\$250,000 and \$260,000 for joint returns). The deduction is available to all taxpayers, not just those that itemize their deductions.	None
Alternative Minimum Tax	Currently, the AMT exemption amounts for 2009 are \$45,000 for joint returns and \$33,750 for single returns. The bill increases the AMT exemption amounts to \$70,950 for joint returns and \$46,700 for single returns for tax year 2009. This is a one-year "fix" of the AMT.	None

<b>Tax Relief for Businesses</b>		
<b>Name of Provision</b>	<b>Description of provision</b>	<b>Effect on Alabama</b>
Bonus Depreciation	Currently, taxpayers are allowed to deduct 50% of the cost of qualified property purchased in 2008. The bill extends this bonus depreciation provision to property purchased in 2009.	Alabama taxpayers will be allowed to take the additional depreciation for property purchased in 2009. LFO estimates that the bonus depreciation and small business expensing changes will reduce Alabama income tax revenue by \$36 million in FY 2009 and by \$21 million in FY 2010. Income tax receipts will increase by \$10 million in FY 2011 and by increasingly smaller amounts each fiscal year thereafter. In the long-run, the increases in revenue will offset the short-term revenue losses.
Small business expensing of assets	Currently, taxpayers with small amounts of investments may elect to deduct, rather than depreciate, the cost of property acquired. The maximum amount that may be deducted is \$250,000 for tax years beginning in 2008, and this maximum amount is reduced by the amount of the taxpayer's investments in excess of \$800,000. For tax years beginning in 2009, these amounts were scheduled to be reduced to a maximum of \$125,000, with the reduction based on investments in excess of \$500,000. The bill extends the \$250,000 and \$800,000 amounts to tax years beginning in 2009.	See Bonus Depreciation effect, above.
5-year carryback of net operating losses	Under current law, NOLs generally may be carried back for two years and carried forward for 20 years. Different rules apply for certain circumstances. The bill allows businesses with gross receipts of \$15 million or less to carry back an NOL that is incurred in 2008 for up to five years.	None - Alabama law is not tied to federal law on NOLs.
Work Opportunity Tax Credit	This credit is available to businesses that hire individuals from one of nine targeted groups. The bill adds two additional groups of individuals for whom the credit may be taken, if they are hired in 2009 or 2010 - unemployed veterans and disconnected youth. The credit is equal to 40% of the wages paid to the person in the first year after they are hired; the maximum credit is \$2,400.	None
Clarification of Section 382 loss limitation regulations	Section 382 generally limits loss deductions incurred by companies that undergo an "ownership change". Losses incurred prior to the ownership change are generally not deductible. The bill repeals IRS Notice 2008-83, which allowed banks to exclude losses from loans or bad debts from the Section 382 loss limitations. The repeal is effective for ownership changes occurring after January 16, 2009.	Unknown at this time
Deferral of income from discharge of indebtedness	Currently, gross income includes income realized by a debtor from debts that are discharged. The bill allows taxpayers to defer taxes on discharge of indebtedness if they repurchase the debt with cash after December 31, 2008, and prior to January 1, 2011.	Unknown at this time
Reduction of tax on qualified small business stock gains	Taxpayers who hold qualified small business stock acquired at the original issue date for at least five years qualify for a reduced tax rate on the gain from the sale of the stock. Currently, the gain is taxed at an effective rate of 14%. The bill reduces the effective tax rate on the sale of the stock to 7% for stock issued after the date of enactment and prior to January 1, 2011.	None
Temporary reduction in S-corporation built-in gains holding period	Currently, gains that arose prior to the conversion from a C corporation to an S corporation are subject to an entity-level built-in gains tax. The tax is recognized by the S corporation over a 10-year period. The bill changes the 10-year period to seven years for tax years beginning in 2009 or 2010.	None
